

Detection benchmark report

llama3.3:70b-instruct-q6_K

RUN20260512_113413

DATEMay 12, 2026 · 11:34

SERVERhttp://localhost:11434

FAIL · Not for production forensics

- Detection rate 43.8% below FAIL threshold (60%)
- FP rate 3.0% within PASS range
- Hallucination 5.7% within PASS range

SUMMARY

Summary. llama3.3:70b-instruct-q6_K processed 50 of 65 files with an average score of 14.9/20. Verdict: FAIL.

EXECUTIVE SCORECARD

50/65 FILES	15 ERRORS	14.9/20 AVG SCORE	92% ALIGNMENT
6% HALLUCINATION	44% RECALL	3% FP RATE	93% PRECISION

GRADE DISTRIBUTION

14 GRADE A 28%	20 GRADE B 40%	16 GRADE C 32%	0 GRADE D 0%
----------------------	----------------------	----------------------	--------------------

Classification performance

	PREDICTED MALICIOUS	PREDICTED BENIGN	
ACTUALLY ATTACK	TRUE POSITIVE 14	FALSE NEGATIVE 3	44% RECALL
ACTUALLY BENIGN	FALSE POSITIVE 1	TRUE NEGATIVE 32	3% FP RATE
			93% PRECISION

FINDINGS & RECOMMENDATIONS

What to pay attention to

- CRITICAL** ID4625-failed login with denied access due to account restriction.evtx: misclassified (expected malicious)

Expected malicious but classified otherwise.

Affected ID4625-failed login with denied access due to account restriction.evtx
- CRITICAL** ID1-WMIexec process execution.evtx: hallucination 83%

Affected ID1-WMIexec process execution.evtx
- CRITICAL** ID4688-Audit policy enumerated.evtx: misclassified (expected malicious)

Expected malicious but classified otherwise.

Affected ID4688-Audit policy enumerated.evtx
- CRITICAL** ID4688-Firewall configuration enumerated (command).evtx: misclassified (expected malicious)

Expected malicious but classified otherwise.

Affected ID4688-Firewall configuration enumerated (command).evtx
- CRITICAL** Verdict: FAIL — not suitable for production forensics

This model breached at least one FAIL threshold. Investigate the drivers below before considering any deployment.

+2 additional findings omitted — see run manifest for the full list.
