

Detection benchmark report

qwen3.6-27b

RUN20260521_175834

DATEMay 21, 2026 · 17:58

SERVERhttp://127.0.0.1:1234

FAIL · Not for production forensics

• Detection rate 56.2% below FAIL threshold (60%)

• FP rate 3.0% within PASS range

• Hallucination 14.5% exceeds PASS threshold (10%)

SUMMARY

Summary. qwen3.6-27b processed 64 of 65 files with an average score of 13.5/20. Verdict: FAIL.

EXECUTIVE SCORECARD

64/65 FILES	1 ERRORS	13.5/20 AVG SCORE	70% ALIGNMENT
14% HALLUCINATION	56% RECALL	3% FP RATE	95% PRECISION

GRADE DISTRIBUTION

10 GRADE A 16%	28 GRADE B 44%	19 GRADE C 30%	7 GRADE D 11%
---	---	---	--

Classification performance

	PREDICTED MALICIOUS	PREDICTED BENIGN	
ACTUALLY ATTACK	TRUE POSITIVE 18	FALSE NEGATIVE 13	56% RECALL
ACTUALLY BENIGN	FALSE POSITIVE 1	TRUE NEGATIVE 32	3% FP RATE
			95% PRECISION

FINDINGS & RECOMMENDATIONS

What to pay attention to

- CRITICAL** ID4625-failed login with denied access due to account restriction.evtx: misclassified (expected malicious)

misclassified (expected malicious). Expected malicious but classified otherwise.

Affected ID4625-failed login with denied access due to account restriction.evtx
- CRITICAL** ID33205-SQL Server member added to database role.evtx: misclassified (expected malicious)

misclassified (expected malicious). Expected malicious but classified otherwise.

Affected ID33205-SQL Server member added to database role.evtx
- CRITICAL** ID4673-Privilege SeMachineAccountPrivilege called.evtx: misclassified (expected malicious)

misclassified (expected malicious). Expected malicious but classified otherwise.

Affected ID4673-Privilege SeMachineAccountPrivilege called.evtx
- CRITICAL** 4624,4674,4688- CrackMap Exec SMB mimikatz.evtx: alignment 0%, misclassified (expected malicious)

alignment 0%, misclassified (expected malicious). Expected malicious but classified otherwise.

Affected 4624,4674,4688- CrackMap Exec SMB mimikatz.evtx
- CRITICAL** ID1-CrackMapExec payload execution.evtx: alignment 0%, misclassified (expected malicious)

alignment 0%, misclassified (expected malicious). Expected malicious but classified otherwise.

Affected ID1-CrackMapExec payload execution.evtx

+14 additional findings omitted — see run manifest for the full list.
